

TECHNICAL BULLETIN 010

Date: January 13, 1999

Subject: New G8 Bender Bar Construction

Effective: Immediately

The G8 Bender Bar construction has been modified to improve wear characteristics and make the main wear component, the Latch Housing (G20148B), replaceable. This new Bender Bar assembly may be used in stitcher heads that used the original G20147A Bender Bar Assembly as well as heads that use the Hohner 9463314 Bender Bar Assembly.

Refer to these new part numbers when ordering the new G8 Bender Bar with the replaceable Latch housing:

G20147BA - Bender Bar Assembly - 24W

G20347BA - Bender bar Assembly - 21x25W

G20357BA - Bender bar Assembly - 23W

Call your local DeLuxe Stitcher Graphic Arts representative for more information on the new and improved G8 Bender Bar.
