

TECHNICAL BULLETIN 014

Date: July 6, 1999

Subject: Tool Kit Hanger

Effective: Immediately

A new Tool Kit Hanger (G30415) was created for DeLuxe Stitcher M-Series Stitcher Machines, to house documentation like service records or Operation and Maintenance Manuals. The M-Series Tool Kit, purchased separately, will also fit in this Hanger. All models of DeLuxe Stitcher Machines will now come standard with the Tool Kit Hanger.

The Tool Kit Hanger can be added to any existing DeLuxe Stitcher M-Series Stitcher Machine, since it uses the screws that currently secure the side panel to the Stitcher Frame as its support as well. Refer to the following diagram and part number when ordering and assembling the new Tool Kit Hanger to your stitcher:

G30415 - Tool Kit Hanger
