

TECHNICAL BULLETIN 017

Date: July 12, 1999

Subject: M7 19x21 Conversion Kit

Effective: Immediately

An M7 19x21 Conversion Kit has been created for owners of M7 and 7AW Stitcher Machines in order to improve the quality and consistency of each stitch. When using 19x21-1/2 flat wire, this Stitcher will consistently perform at a higher quality when stitching through heavier stock.

Refer to these new part numbers when ordering the M7 19x21 Conversion Kit for your M7 and 7AW Stitchers:
