

TECHNICAL BULLETIN 011

Date: April 9, 1999

Subject: Muller Martini Feed Gear Kit (MMKFG1)

Effective: Immediately

A new part number has been created for the Feed Gear Assembly on the DB75HD. Since the individual parts of this assembly are not compatible with Muller Martini Heads and have to be ordered together, the MMKFG1, or the Muller Martini Feed Gear Kit was created.

The MMKFG1 (Muller Feed Gear Kit) can be sold to any HK75 Muller Martini Head owner as a replacement for their existing Feed Gear parts; 0881.0368.4, 0881.0308.3 and 0881.0330.4.

Call your local DeLuxe
Stitcher Graphic Arts
representative for
more information on the
new Muller Martini Kit.

* DeLuxe/Bostitch equivalents
for the Muller Martini Feed Gear parts
