

TECHNICAL BULLETIN 013

Subject: M-Series Tool Kit

A new M-Series Tool Kit (M-Tool Kit) was created specifically for the DeLuxe Stitcher M-Series Stitcher Machines, to include all tools necessary for the care and maintenance of the machines. The M-Series Tool Kit comes complete with standard American tools not available to European customers. The entire Kit is housed in a Tool Roll and is specifically designed to fit in the Tool Kit Hanger, which now comes standard on all M-Series Machines.

The M-Series Tool Kit and its components can be ordered separately as well. Refer to these part numbers when ordering the new Tool Kit or the Tool Kit components for your stitcher:
